Work Experience

OPTIVAL HEALTH SOLUTIONS

Software Engineer

12/2020 - Present

- Contributed over 3+ years of dedicated service as a Software Engineer
- Specialized in designing, developing, and maintaining robust React applications for the company's projects.
- Demonstrated a proven track record of delivering high-quality code and effective solutions to address complex challenges.
- Recognized within the organization for excellence in crafting reliable and efficient React-based solutions.

Projects

MedPlus (12/2020 - Present) <https://www.medplusmart.com/>

MedPlus offers a range of healthcare products, including pharmaceuticals, over-the-counter medicines, wellness products, personal care items, and more. They may also provide diagnostic services, allowing users to book appointments for various medical tests, doctor consultations and checkups.

- Developed comprehensive online catalog for medicines, covering prescription drugs, over-the-counter medications, and healthcare products.
- Implemented user registration system with secure authentication for customer accounts.
- Enabled advanced search and filtering options for medicines based on name, brand, category, or medical condition.
- Implemented filters for refining search results by factors like price, availability, and dosage forms.
- Established a secure prescription verification system, allowing users to upload and validate prescriptions.
- Enabled seamless online ordering, cart management, and secure payment processing.
- Supported various payment methods, including credit cards, debit cards, net banking, and digital wallets.

Diagnostics

MedPlus aimed at streamlining the process of booking diagnostic lab tests for customers. The application facilitates seamless interaction with the MedPlus Diagnostics Center, allowing users to conveniently reserve lab slots based on their proximity to the nearest center

- Engineered an application for MedPlus leveraging advanced technology to optimize the booking process for diagnostic lab tests.
- Integrated a user-friendly interface that seamlessly connects users with MedPlus Diagnostics Center, employing technologies for efficient slot reservation.
- Implemented a user-friendly interface enabling customers to conveniently reserve lab slots.
- Implemented geolocation features, utilizing cutting-edge technology, to allow users to easily identify and select the nearest diagnostic center.
- Utilized technology-driven solutions to streamline the overall user experience, making lab test appointment booking both convenient and efficient.

Doctor Consultation

MedPlus facilitate seamless doctor consultation bookings for patients. The system allows users to book appointments for both online and walk-in consultations based on their preferences.

- Implemented user-friendly features to enhance the overall booking experience for patients.
- Prioritized patient preferences throughout the application, focusing on creating a personalized and tailored appointment scheduling process.
- Employed intuitive design elements and interactive features to make the booking interface more user-centric.
- Customized the appointment scheduling system to accommodate individual patient needs and preferences..
